

ATEX expert reports

HOME > CATEGORIES > SERVICES > ATEX EXPERT REPORTS

We offer professional assistance related to explosion and process safety. Based on our knowledge and experience in applying regulations. We will help you implement an installation that is safe to use. We offer installations and design services:

- heat recovery,
- ventilation,
- air conditioning,
- deodorization,
- dust removal.

We provide assistance at every stage of introducing technological lines - from design to investment acceptance!

Additionally, we specialize in the following:

- Explosion Risk Assessment
- DZPW - Explosion Protection Document
- Fire safety instructions
- ATEX audits
- Inventories of ATEX devices
- Static electricity protection instructions

We provide the services we offer based on the ATEX directive - 2014/34EU and the SEVESO III directive - Prevention of serious accidents.
