

PDR - Adjustable Gland Plate for RSA, SZA, RSB, SZB, RSC, SZC, PS.

HOME > CATEGORIES > EXTERNAL BUILDING SYSTEMS > PDR - ADJUSTABLE GLAND PLATE FOR RSA, SZA, RSB, SZB, RSC, SZC, PS.

It is used for easy entry of cables into the enclosure. Equipped with perforated flat bar (you can additionally clamp the cable with a plastic band) and angle bar clamps, surface is provided with polyurethane gasket which provides a higher tightness. It is made of 1.5 mm thick galvanized steel sheet, powder painted on RAL7035_GS colour.

In enclosures of 1200 mm width there are 2 openings for PDR-6 gland plate, whereas in enclosures of 1400 and 1600 mm width there are 2 openings for PDR-8 gland plate.
