

## Reinforced mast handle

HOME > CATEGORIES > ACCESSORIES FOR STEERING CABINETS > MOUNTING SYSTEMS > REINFORCED MAST HANDLE

The improved holder, which is now more durable, allows for solid and stable mounting of external housings on masts. This holder has been adapted to work with housings with widths of 400, 600 and 800 mm. To properly hang the housing, you need two rails, which are included in the set.
