

SKINTOP® INOX SC

HOME > CATEGORIES > HYGENIC ZONE > SKINTOP® INOX SC

SKINTOP® INOX EMC, cable gland resistant to corrosion of stainless steel with smooth surfaces, compact design, resistant to sea water.

Version of stainless steel of compact design.

Optimum EMC protection.

BENEFITS

- Smooth surfaces – without sharp edges
- Compact design
- Significant, varying clamping ranges
- Low resistance of screen contact, optimum EMC protection
- Highly conductive, flexible EMC spring contacts, allowing for easy installation of screens of various diameters.

SCOPE OF APPLICATION

- To provide electromagnetic compatibility during screen earthing with copper twisted-pair or copper strip wrapping.
- Pharmaceutical industry
- Food industry (zone without products, spraying zone)
- On- and off-shore applications
- Bottling plants and breweries

STANDARDS AND APPROVALS

- DIN EN ISO 14 159 Machines safety, hygienic requirements concerning machines construction
- DIN EN 1672-2 Machines design guidelines
- ECOLAB® Industrial standard for innovative and effective cleaning and disinfection of production lines.

PRODUCT DESIGN

- Metric connecting thread acc. to DIN EN 60423

- Basic technical information DIN IEC 62444

NOTE

- In case of lacquered, anodic or powder painted housing, use our safety nuts SKINDICHT® SM-PE to provide proper contact.
- Matching complementing elements – see metric accessories SKINTOP®
