

SNG - Reinforced base stand for ZK

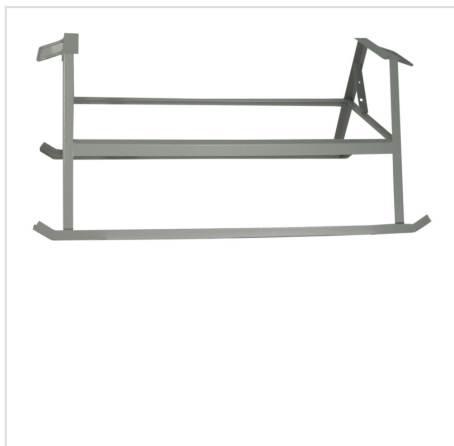

HOME > CATEGORIES > SNG - REINFORCED BASE STAND FOR ZK

SNG is bigger and reinforced version of a legs stand.

It is used for configuration of ZK-based enclosures to portable Construction Site Enclosures. Depending on the width of the enclosure the dimension of the base changes. A standard base height is 400 mm.

The base is partially made of 30 × 30 × 4 mill steel angle bar, powder painted on RAL7035_GS.
