

Termostat - special design Ex REx 011 | 15 °C, 25 °C (T6)

HOME > CATEGORIES > HEATERS AND THERMOSTATS EX > ATEX ZONE > THERMOSTAT - SPECIAL DESIGN EX REX 011 | 15 °C, 25 °C (T6)

High accuracy, low switching differential temperature and long life (number of cycles) compact mechanical thermostat. The thermostat has the temperature class T6 (60 °C max.) and is designed to control heaters installed in explosion hazard zones. High switching current allows for direct control of high power heaters.

REX 011

- For explosion hazard zones
- High switching current
- Compact design
- Factory set temperature
- Ready for connection
- Temperature class T6
