

USTM_C90 - Universal assembly table with 0 90 degree tilting frame

HOME > CATEGORIES > BASIC ASSEMBLING TABLES > USTM_C90 - UNIVERSAL ASSEMBLY TABLE WITH 0-90 DEGREE TILTING FRAME

The universal assembly table is a product made of the highest quality materials. The product was created with control cabinet installers in mind - it will certainly make their work easier. It is dedicated to industries such as: electrical, industrial automation, automotive. A huge advantage of this product is the fact that it has step adjustment of the working frame inclination.

The assembly table is characterized by great attention to ergonomics - it increases work comfort and efficiency. The table also includes two stops and four mounting brackets: two single and two double angular. They are primarily used to attach all mounting plates.

This product is certainly not only very functional, but above all it can make work easier. Four solid wheels are attached to the base frame, which can also be locked in position. The permissible load horizontally is 200 kilograms and vertically 150 kilograms.

First of all, the product is made very solidly - so it can serve the installer for up to a dozen years of hard work.

Many types of mounting plates from all control cabinet manufacturers can be equipped on the assembly table.

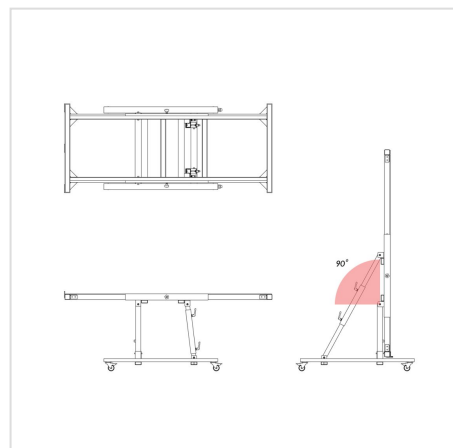

DISTRIBUTOR:

TECHNICAL DATA:

- Operating frame – dimensions: 800 x 2000 mm
- Working surface height: 750 mm
- Table weight: 55 kg
- Permissible horizontal load: 200 kg
- Permissible vertical load: 150 kg
- Operating frame tilt range: 0 – 90 degrees
- Possibility to install a roller set: Yes
- Moving base on wheels: Yes
- Possibility to disconnect the running base from the frame: Yes
- Additional side support: No
